

ADIR GAMIL

Fullstack / Frontend Developer

2000adir2000@gmail.com | 052-699-9581 | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

SUMMARY

Fullstack / Frontend Developer skilled in building responsive web applications using React, Redux, Node.js, and MongoDB. Key contributor to StayFlex, a scalable platform inspired by Airbnb. Familiar in Vue.js and Angular. IDF Intelligence Corps veteran with security clearance, ensuring reliability and expertise in handling sensitive information. Seeking to leverage my skills in a collaborative and innovative environment.

EXPERIENCE

AniZone MERN Stack Application

Nov 2024 - Present

- A responsive social platform using React, Redux, and TailwindCSS, featuring user profiles, role-based permissions, watchlists, comments, reviews, live blog posts, and real-time updates.
- Integrated Firebase, Amazon SES, and WebSockets to enhance authentication, notifications, and email services.
- [Live Demo](#)

StayFlex Web Application

Jul 2024 - Sep 2024

- Developed StayFlex, a fullstack web application inspired by Airbnb, using React, Redux, Node.js, and MongoDB. Led the design and implementation of a responsive user interface, integrated real-time updates with WebSockets, and managed the project from concept to deployment.
